

REFLECTING ON WHO YOU ARE,
CREATE SEVERAL SMALL DOODLE
SELF-PORTRAITS THAT EACH SHOW
A DIFFERENT SIDE OF YOU .

The Mirror

I see a mirror that is reflecting on me
I see the mirror and it sees me
I see myself,
I see ME

When I look in the mirror all of our features are different
When I look in the mirror and smile I see dimples
I see a big sister full of caring and love
I see a good big cousin to my little tiny tots

I see a boy with a passion for animating
I see a girl who has eyes like the ocean
I see a future in the mirror
Mirror, mirror on the wall, what does the future hold for us all?

In the mirror I see a person with big dreams
I see a person that enjoys their life
I see a person that loves courage
A girl who may be small but dreams big

Everyone is special in their own way
Everyone has a unique personality and talents
Some people can do what you can't - but you can learn from them
In the mirror I can see one big friendly community

It doesn't matter about appearance, I'm still a human being
Does it matter my colour or race or religion or gender
Everybody is included no matter if you are different
To be respected you have to respect others

Get up and dust yourself off
Because you have to show the world your qualities
Show people how you want to be treated
If you want to be loved, show love back

Self belief is key in life
Never compare yourself to someone else
You are who you are in your own way
I am small but in the heart I am strong

I see a light that walks you through the darkness
No matter your face, race or even your pace
You are brave, tough and strong like no one else but yourself
I accept who I am, we do different stuff,
but we are all friends at the end of the day
